

Step 1: Deploy the FWC22 Prediction Game and choose language

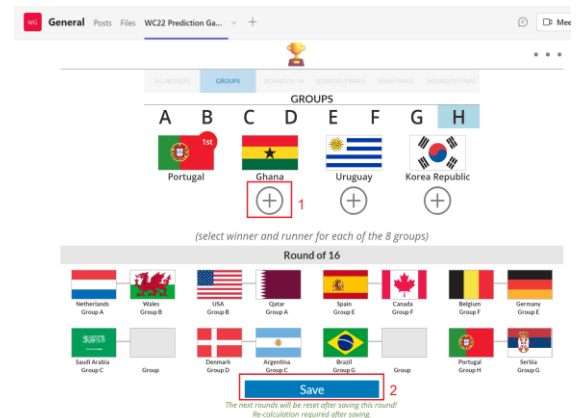

Follow [this](#) deployment guide to set up the app and a private team for your game admins. Then click “Language” and edit the dropdown to add the language

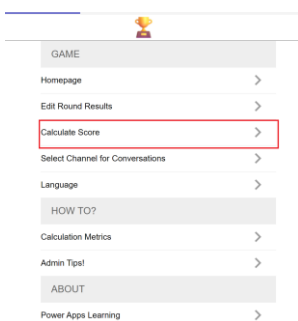

Step 2: Edit Round Results After Every Round

Click on “Edit Round Results”, then update the winners for that round. Make sure to save your result updates!

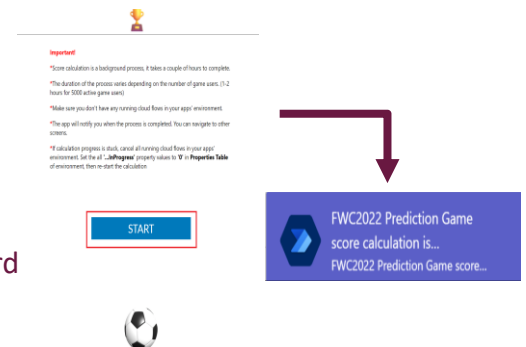

Step 3: Calculate and update your leaderboard scores

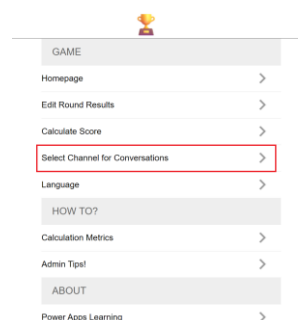

Click “Calculate Score”. Then click the blue “Calculate Scores” button

Rank	Top 1000 Players	Score
1	MOD Administrator	695
2	Diego Siciliani	635
3	Delina Berger	635
4	Christina Cline	130
5	Alex Wilber	100
6	Lee Gu	70
7	Lilla Holloway	50
8	Nestor Witke	40
9	Patti Fernandez	30
10	Pradeep Gupta	20
11	Megan Bowen	10
12	Adelle Vance	10

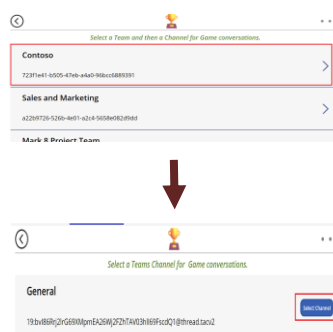

Click “Start”. You will get notified when the leaderboard is updated

Step 4: Enable/Disable Channels For Conversations

Click “Select Channel for Conversations”. Choose a team, then choose a channel

Click “Disable Sharing” to disable channel conversations
